This training helped me understand others' mentality and changed my expressing level. I stopped loose talks and started reading books regularly. The colleague feedback activity showing our positives and negatives was eye-opening - it revealed how others perceive me. I now speak boldly and stand out, with better attitude and calm replies. The group discussions took me back to college days! Ms. Priyadarshini showed me who I really am with her peculiar approach and good attitude. I felt completely comfortable sharing everything. Thank you Skillhub

SKILLHUB's training improved my time management, communication, and confidence dramatically. I now use to-do lists and practice active listening. The biggest change? I learned that asking questions is a strength, not weakness. The son-daughter acting session had the biggest impact, teaching me to explain matters clearly. I can now speak confidently and participate actively in meetings. Ms. Priyadarshini's inspiring teaching style made concepts easy to understand and apply. I feel more connected with my team and confident in my role. Rating: 10/10

Thank you Priyadarshini for a wonderful session for the past 15-days. It's really an eye opening session for me. It not just a session with a random PPT, It's a session that complex topic into a simple one with an activity that really helps to implement the concept in daily tasks. Not only learned new things it helps to understand myself and improve skills to move my career to the next level. Once again I thank you Priyadarshini.

Hlo mam hope you are doing great. I need a help from you regard to the off campus placement support. Can we have a call regard to this to know how to approach companies apart from placement support from institute? 09:22

I need your support in this high time mam because even after clearing of my final mock the placement support from [redacted] not good. I look forward to know the changes I require to make in approaching companies through off campus. Edited 09:25

My issue is completely different mam- I can speak with people who are familiar with me but whenever someone tries to sit on interview seat & started asking questions may be because of nervousness & I feel they are superior to me which makes me to feel uncomfortable in expressing my thoughts to them even though I'm prepared for the interview 12:15

The issue is - I'm completely ok to speak but because of lagging in structuring my answers I'm unable to express the things properly . 12:15

I don't know how to approach them & apart from that I am planning for off campus with your support 11:4
